

MORNING MEETINGS

START YOUR DAY PLANTING POSITIVE SEEDS

- **Gardener Rhyme Time:** break into groups and have each group write a line to a poem built off the first groups rhyme
- **Gardener Goals:** create a virtual vision board of all the goals and dreams of your class (a jam board)
- **Weeds to Seeds Board:** create a bulletin board in your classroom where as a class you discuss common classroom weeds and turn them into seeds (origami tulips are a fun visual)
- **Plant A Sensory Garden:** have your class build and construct their own sensory garden (bin with sand, gravel, plastic flowers, water bowls, essential oils to spritz)
- **Fox Flower Delivery:** randomly choose classmates to write something positive about another classmate and randomly leave them on their desk (use origami foxes)
- **Self-Love Flowers:** have students write down the things they love about themselves (use 'my flowers are' pdf)
- **Pick A Tool:** create a growing list of all the helpful 'gardening tools' your class like to use and refer to them often
- **Pair Of Gardeners:** pair off your students and have one come up with a weed and have the other turn the weed into a seed & present to class
- **LOL Flowers:** go around the class and have each student talk about a time they laughed out loud
